Battery

Powered

• Battery Meter

• Charging Port

• Ergonomic Handle Trigger

• Non-Corrosive, Noise Reducing Base Clip

- Up to one hour run time.
- Up to 30 hospital rooms per charge.
- Extra batteries/handles are easy to swap for larger projects needing longer run times.
- New noise reducing and corrosion free base clip securely connects to the machine base.
- New ergonomically designed handle trigger keeps the switch and button safe and reduces user fatigue.
- Built in battery management safety system monitors each cell for temperature and voltage.
- Standard units sold with one battery.
- 2 battery units and extra batteries also available.
- Battery recycling program available.
- Approximately 2 hour charge time.
- UL, CSA and CE Certified.

Specifications subject to change without notice.
