Shop Pads

White Driver Pad 20" SS P1420DRIVER | 28" SS P1428DRIVER

This 1/4 inch spacer or driver pad is used to protect the grip face when using abrasive pads. Place this pad between the grip face and the abrasive pad.

Blue Driver Pad 20" SS P1420BLU | 28" SS P1428BLU

This spacer or driver pad is used to protect the grip face when using abrasive pads. Can also be used for light cleaning.

Red Driver Pad 20" SS P1420RED | 28" SS P1428RED

This spacer or driver pad is used to protect the grip face when using abrasive pads. Can also be used for light cleaning. Less abrasive than the Blue Driver Pad.

White Pad 20" SS P1420WHT | 28" SS P1428WHT

This pad is used for light cleaning, particularly on high-gloss surfaces.

Xtract Pad 20" SS P1420XTRACT

This is a melamine pad for removing scuff marks and cleaning rubber floors, gym floors, VCT, terrazzo, polished concrete and more.

Blue Tile & Grout Pad 20" SS P1420TGB | 28" SS P1428TGB

This pad is used for any surface with depth and dimension such as tile & grout, LVT, concrete and rubberized flooring. Provides deep cleaning without being abrasive.

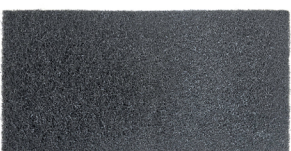

SQP Pad 20" SS P1420SQP | 28" SS P1428SQP

Thin, abrasive pad used in the dry floor finish removal process. (VCT) Use with a driver pad.

SHO Pad 20" SS P1420SHO | 28" SS P1428SHO

This is an abrasive pad used to remove floor finish when chemical stripping VCT floors. Use with a driver pad.

Titan Pad 20" SS P1420TITAN | 28" SS P1428TITAN

This pad has a high content of abrasive grit and has superior chemical resistance. Used to remove finish from VCT during the chemical stripping process. Use with a driver pad.
