White Driver Pad SS P1218DRIVER

This 1/4 inch spacer or driver pad is used to protect the grip face when using abrasive pads. Place this pad between the grip face and the abrasive pad.

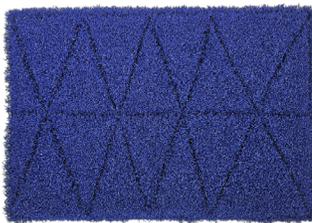

Red Driver Pad SS P1218RED

This spacer or driver pad is used to protect the grip face when using abrasive pads. Can also be used for light cleaning. Less abrasive than the Blue Driver Pad.

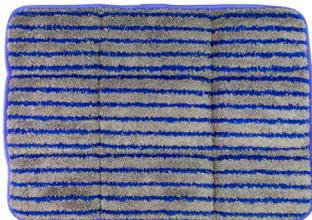

Blue Driver Pad SS P1218BLU

This spacer or driver pad is used to protect the grip face when using abrasive pads. Can also be used for light cleaning

Blue Tile & Grout Pad SS P1420TGBV

This pad is used for any surface with depth and dimension such as tile & grout, LVT, concrete and rubberized flooring. Provides deep cleaning without being abrasive.

Microfiber Cleaning Pad SS P1420CB

The Microfiber Cleaning Pad deep cleans even the highest-traffic areas. This machine washable microfiber cleaning pad is great for low-moisture cleaning on carpets.
