

Your Complete Floor Cleaning Solution

Pivot Floor Machine with HydroVac Pro Extraction System

Model SS EBG-20CH PIVOT

Square Scrub's Pivot Floor Machines have been an industry staple for years thanks to their versatility and durability. Now that legacy expands even more with the HydroVac Pro Extraction System! This powerful combination lays down solution, deep cleans the floor, and cleans up the slurry left behind all in just one pass!

- Fits into bathrooms and other tight areas that big and bulky autoscrubbers can't.
- More than just maintenance. The Pivot with the HydroVac Pro is your complete solution for truly clean floors.
- Scrubs out biofilm build-up in tile & grout, LVT, concrete and more, and picks up the slurry all in one step.
- With Square Scrub's line of pads and attachments available for the Pivot, there's hundreds of possible configurations for your unique flooring.
